

Homework 0

For this homework, you will need to write a report that compares and contrast two different programming languages that have object oriented features. Possible languages include

- C++
- C#
- D
- Java
- Python
- COBOL (post 2002)
- Boo
- E
- Smalltalk

If you desire to write your report using languages not listed here, feel free, but make sure they have object oriented features.

Formatting

- 2-3 full pages; including citations
- Reasonable use of figures is allowed
- 11 point Times New Roman font
- Standard 1" margins
- Cover page with relevant information (not include in length calculations).
